

THE MODERN AI TOOLKIT:

A Practical Guide for Business Owners

Thursday, October 8 | 10 a.m. – Noon

IN PERSON

Empower your business! This workshop is designed to equip owners with the strategic insights and practical steps needed to evaluate, implement, and leverage Artificial Intelligence for increased productivity and business growth.

We will break down the two main categories of AI, Generative LLMs and specialized applications, with real world examples. The session includes a look at leading platforms, key features like Canvas workspaces and data connectors, and how to choose the right tools. You will leave with a clear framework to ensure every tech investment supports real business results.
