Additional Info:				
Re-roof Hot - Tear Off Sq. Ft.: 3000				

Description: The scope of work includes the complete tear-off and disposal of all existing roofing materials, including old shingles, underlayment, flashing, and any damaged or deteriorated sheathing as identified during the removal process.

Following removal, the roof deck will be inspected to ensure structural integrity. Any compromised or rotted wood sheathing will be replaced as needed to provide a sound substrate for the new roofing system.

A new roofing system will then be installed, consisting of a code-compliant underlayment, appropriate flashing at all roof penetrations, and shingles.

Debris generated from the project will be removed from the site and disposed of properly.
