

New Food Waste Recycling Program

The City of Upland has approved a food waste recycling program for commercial customers. Businesses that generate 4 cubic yards or more of organic waste per week are required to arrange for organic recycling services. The State requirements specify that applicable business waste generators:

- Separate organic waste from other waste and participate in a waste recycling service that includes collection and recycling of organic waste.
- Recycle its organic waste on site, or self-haul its organic waste off-site for recycling; or
- Subscribe to an organic waste recycling service that may include mixed waste processing that specifically recycles organic waste.

Additionally, the State law contains a trigger that will increase the scope of affected businesses, if waste reduction targets are not met.

January 1, 2017: Businesses that generate 4 cubic yards of organic waste per week shall arrange for organic waste recycling services.

We appreciate your cooperation in this matter.
